Announcements

UAF's proposed **Life Sciences Innovation and Learning Facility** is UA's top priority for new construction. Learn more about what's planned and why this facility is urgently needed for our students and for Alaska's premier life science research program.

Irving-WRRB storm drain installation construction begins June 1 and is expected to be completed by July 15. This project is necessary to divert roof drainage from WRRB to an existing storm drain system to prevent the continued development of sink holes in the area.

Access to the O'Neill Building will be reduced down as the work progresses, but we will continue to provide access to the building in one location or another at all times.

Additional updates will be provided on potential closures and access issues as the project continues to develop.

For questions, please contact us at 474-7000.

Thank you for your continued patience as we work to make repairs for a safer environment on campus!

New Funding Opportunities

Gulf of Alaska Integrated Ecosystem Research Program
(North Pacific Research Board)

Deadline: 10/2/2009

This request for proposals is for the Forage Base component, the Lower Trophic Level & Physical Oceanography component and the Ecosystem Modeling component. Each component will be competed separately.

For more information, go to nprb.org/goaierp/index.html

4th Annual National Graduate Student Research Festival
(National Institutes of Health)

Deadline: 7/1/2009

An opportunity for advanced graduate students from across the US to visit the NIH's main campus, located in Bethesda, Maryland.

November 12-14, 2009

Transportation, meals, and accommodations will be provided for all students selected to participate.

Discover the unique research approaches employed at NIH

Explore opportunities for postdoctoral training

Present research to an audience of peers and NIH scientists

Meet NIH fellows and investigators

Tour the NIH's extensive research and clinical facilities
