New Funding Opportunities

Angus Gavin Memorial Migratory Bird Research Grant
(Angus Gavin Migratory Bird Grant)

Deadline: 11/16/2009

Announcement of Availability for the 2010 Field Season

This grant is made possible by a gift from the Atlantic Richfield Company

Grants are intended to be used for the support of research on bird species found either permanently or seasonally in Alaska or its coastal waters, including their biology, general ecology and habitat relationships. Research designated to yield information of value in management of bird species will be given preference. This shall include aspects of management directed toward protection, maintenance or enhancement of bird populations and their habitats that may be influenced by development activities. Proposals dealing with the habitat of Alaska bird species and its effects on such species are acceptable under the terms of the grant.

Restrictions: Graduate students and faculty members employed within the University system
