## Announcements

**The 2016 Wildlife Society Publication Award - Outstanding Monograph** was given to Terry Bowyer, professor emeritus and IAB research scientist, and co-authors for "Effects of harvest, culture, and climate on trends in size of horn-like structures in trophy ungulates," by Kevin L. Monteith, Ryan A. Long, Vernon C. Bleich, James R. Heffelfinger, Paul R. Krauseman, and R. Terry Bower, Wildlife Monographs 183, 2013.

**Caribou-Poker Creeks Research Watershed** is an active NEON construction site. The road remains open only to ATV and foot traffic. NEON is in the process of installing power in and along the road so please use caution when approaching people or equipment. The contractor has agreed to make every effort to ensure that we have access but this means communicating with them when folks will be working in the watershed. Please send Jami Hollingworth your work schedules if you have any activities planned for CPRW this summer.

**NSF seeks community input on Polar Programs realignment.** Details in [Dear Colleague Letter](#).

## Events and Seminars

### 4 July 2016

- **Notice: Independence Day (offices closed)**

### 5 July 2016

- **Notice: Independence Day (offices closed)**
