**Announcements**

Mark Lindberg has officially launched the Hunting Science Podcast ([huntingscience.community.uaf.edu/](http://huntingscience.community.uaf.edu/)) with the assistance of the great eCampus staff and the Office of Intellectual Property and Commercialization. The goal of this podcast is to educate the hunting community about the science of hunting. Most episodes will feature colleagues in Alaska, including IAB faculty so subscribe and stay tuned. Mark and his podcast were recently featured nationally in episodes 33 and 34 of the Ducks Unlimited Podcast ([www.ducks.org/dupodcast](http://www.ducks.org/dupodcast)). He will discuss this podcast and other ways of communicating science at his Life Sciences Seminar on 6 December.
